

Registration

Posledná aktualizácia: 07.05.2021

If the company is registered for Slovak VAT and its turnover from deliveries to Slovakia exceeds our exemption threshold 200 000 EUR and its turnover from dispatches exceeds our exemption threshold 400 000 EUR, the company should firstly be registered in our office (Statistical Office of the Slovak Republic - SO SR). Questionnaire must be saved to a computer and sent after completion.

e-mail to:

or post to the address:

840 05 Bratislava 45

Questionnaire ([rtf - 115 kB](#)) ([pdf - 150 kB](#))

After registration we send you the username and password for electronic sending of the INTRASTAT-SK declaration.

Power of attorney

The power of attorney is intended for the representation of the reporting unit by an authorized representative in the performance of the reporting obligation within the framework of INTRASTAT-SK statistical surveys. It is necessary especially in the case of receiving login data for electronic services to representatives. The model of power of attorney also offers the possibility to authorize a representative for several legal acts, of which those that will not be performed by the representative will be crossed out. Requirements marked *) give a choice. Mandatory details of the power of attorney are identification data on the principal and the representative, the duration of the power of attorney, the date of signing, the legible name, the function and the signature of both parties.
