[Scheme of organizational structure of the SO SR](#) (pdf - 380 kB)

Statistical Office of the Slovak Republic is central body of state administration of the Slovak Republic for the branch of statistics. Its status is regulated by the Act No. 575/2001 Code of Acts on Organization of Activities of the Government and Central Government in wording of later regulations. The office meets conditions of the Act No.540/2001 Code of Acts on State Statistics in wording of later regulations and tasks specified by next generally binding regulations.

Except the central office in Bratislava tasks of state statistics are also ensured by eight regional offices with their seats in Bratislava, Trnava, Nitra, Trenčín, Žilina, Banská Bystrica, Košice a Prešov.

The office is managed by the president of the office who is also responsible for its activities.

The office is broken down on functional units, specialized sections and mentioned regional offices.

To express recognition of the quality of work in the sphere of state statistics the Statistical Office of the SR was awarded by Certificate of Quality by the standard ISO 9001 in November 2006 and confirmed two times by recertification audit in years 2009, 2012.

The office is the establisher of the subsidized organization INFOSTAT – Institute of Informatics and Statistics. INFOSTAT solves research and development tasks of state statistics on the base of annually concluded contracts with the Statistical Office of the SR.
