

Provision of data before their first release by the Statistical Office of the SR

The preferential provision of data before their first release is carried out by the Statistical Office of the SR in accordance with the principle of impartiality and objectivity of the Code of Practice for European Statistics: "*Any privileged pre-release access to statistics by any outside user is limited, well-justified, controlled and published.*"

For ensuring the quality of statistical production, the Statistical Office of the SR provides selected macroeconomic and production indicators, selected indicators of public administration finance statistics and selected employment indicators. The process of data provision is formalized via agreements.

Authorized entities:

- National Bank of Slovakia
- Ministry of Finance of the SR
- Council Office for Budget Responsibility
- Institute of Informatics and Statistics

The Statistical Office of the SR provides selected data before their first release with an embargo of 30 minutes to the SR or foreign press agencies.
